To cough up all the records of all that you hold dear  
A year that's been besmirched with bedeviling situations  
Like disappearing IRAs and 401K deflations

You lie awake tossing and turning, with your serenity sinking  
While the Nightmare of Profits Lost fights the Phantom of Equity Shrinking  
"Barack atah Illinois" - is the prayer you may hear many mumble  
But it's Maven Marlana's great joy--to not let your infrastructure crumble

Let Marlana, your Tax Goddess Wonder, make certain your burden is lightened  
And if you feel blood pressure rising, from tax rules so wildly confusing
